THE ATELIER

A gate, reconsidered.

For the most considered homes in the world.

Lumina Gates designs and builds bespoke gates for the most considered homes in the world. Every piece is made to order, configured to the inch, finished by hand in our atelier, and shipped (by us, with care) to your project, anywhere on the map.

This catalogue is for architects, interior designers, contractors and developers who want a safety gate that belongs to the room it lives in. It outlines our materials, our standard dimensions, the customisations available to your client, and the full collection of twenty-nine signature designs: eleven in optical-grade plexiglass and eighteen in solid wood.

Every gate is built one at a time, to your project. The full collection and a live made-to-order configurator are available online at luminagates.com.

PROVENANCE

One thousand gates in the field.

Lumina Gates has shipped more than one thousand made-to-order gates to private clients, interior designers and architects across Europe, the United Kingdom, the United States and beyond. The designs in this catalogue have been refined over years of practice and feedback from the field.

We ship worldwide. Standard delivery to the UK and EU is two to three weeks from order confirmation. The United States, Canada and Australia are typically three to four weeks. White-glove installation is available in selected metropolitan areas on request.

Trade access and specification packs are available to professional buyers. Please introduce your studio or practice by email and we will respond within one working day. The full collection can also be explored online at luminagates.com.

SPECIFICATIONS

Materials, dimensions, customisation.

MATERIALS & CONSTRUCTION

Optical-grade plexiglass, 4 mm. Edge-polished, scratch-resistant, shatter-tested. CNC-cut from a single sheet and bonded into frames of brushed aluminium, painted hardwood or solid oak.

Solid wood, 18 mm and 30 mm. 18 mm for our lattice and slatted designs (Lux, Flink, Trygg); 30 mm for barn and panel constructions (Barnhall, Double Barn, Flat Cat). Sourced from sustainably managed European forests; finished by hand with low-VOC oils, wax or water-based paint.

Hardware. Brass, brushed steel, or matte black. Concealed soft-close hinges, double-action child-resistant latches, and wall-mount installation with concealed brackets, complete with mounting templates and an installation handbook.

Wood species. European oak by default. On request: American walnut, ash, beech, maple, sapele or any specified species. Enquire at specification stage for lead time.

STANDARD DIMENSIONS

Standard height: 70 cm (27.5 in). Tested against international child and pet safety standards.

Width: fully bespoke. Standard range 30 to 137 cm (12 to 54 in); no upper limit. We have built gates as wide as 3 m (10 ft) for grand-room thresholds.

Height: fully bespoke. No minimum or maximum. Cat-scaled gates from 40 cm; stair-landing gates above 110 cm.

Tolerance. ±2 mm on every cut, joint and panel.

Every gate is made to order. Each project is quoted individually on the basis of dimensions, material, finish and hardware.

CUSTOMISATION

Specify the following with your enquiry and we will respond within one working day:

Opening dimensions. Width and height in mm or inches.

Material. Plexiglass, solid wood, or hybrid (oak frame, plexi panel).

Wood species. Oak (default), walnut, ash, beech, maple, sapele or specify.

Finish. White, jet black, anthracite, natural oak, unfinished, or any RAL / Pantone / Farrow & Ball.

Hardware. Brass, brushed steel, or matte black.

Mounting. Wall-mount with concealed brackets.

Engraving. Hand-engraved names or scripts (Aurora, Liten Etched, Noord Etched).

For configurations beyond this list (bi-fold, oversized barn doors, bespoke lattices, hospitality projects), write to us or browse the full collection online at luminagates.com.
