FOR CHOOSING MOBILYHOME

OUR SHELTER

Our shelter.

In July 2024, Turkey passed a law ordering municipalities to clear every street of stray dogs. Dogs not adopted within thirty days are euthanised. Millions are at risk. We run a small shelter that takes in as many as we can, gives them food, vet care, and a real chance at a home.

A SMALL FAVOUR

Will you help us keep them alive?

Every Etsy review keeps our atelier running. Every gate we craft pays for food, vaccinations, and another safe corner for a dog who would otherwise be lost to this law. A few honest words from you can, genuinely, save a life. We mean that literally.

With everything we have, thank you.
