OUR SHELTER, IN THREE FRAMES

Will you help us keep them alive?

In July 2024, Turkey passed a law: any street dog not adopted within thirty days is euthanised. We run a small shelter to rescue as many as we can. Every Etsy review you leave keeps our atelier alive and pays for food, vet care, and another safe corner for a dog who would otherwise be lost. A few honest words from you can, genuinely, save a life.
